

Implementation Questionnaire

Telia Company March 2019

Introduction

Notes/instructions on completing this template

- Please complete all sections and all questions as far as possible
- Where a question or section is not applicable, please mark as N/A
- Where is overlap or no change to information previously submitted in company statement of commitments, please simply enter "refer to self-statement"
- URLs or screenshots (with links) are particularly useful in illustrating individual points
- Please add any additional information/data relevant to the submission at the end of the appropriate Principle

1. Name of the company on whose behalf this submission is made:
Telia Company
2. Country or primary markets where products/services are offered (in EU) to which this
submission applies in which European markets does your company operate
Sweden, Finland, Norway, Denmark, Estonia, Lithuania, Latvia
Sweden, Filliand, Norway, Denmark, Estonia, Lithuania, Latvia
3. Product(s) or services included within the terms of this submission
Mobile and fixed telephony
Mobile and fixed connectivity and internet access
IPTV and/or cable TV (available in Sweden, Finland, Denmark, Estonia and Lithuania)

4. Nature of activity
\square Manufacturers of desktop and laptop computers, mobile phones, tablets, TV set top
boxes and gaming consoles
✓ Network operators and connectivity providers
☐ Online content provider
☐ Online service provider
☐ <i>Other</i> (please specify):
5. Person(s) completing the report
Name: Heddy Ring
Position: Sustainability Coordinator
Email: heddy.ring@teliacompany.com

Principle 1 – Content

Commitments

Signatories should:

- Indicate clearly where a service they offer may include content considered not to be appropriate for children and display prominently options which are available to control access to the content. This could include, where appropriate for the service, tools to manage access to certain content, advice to users or a recognised system of content labelling.
- Display prominently and in an easily accessible location the Acceptable Use Policy, which should be written in easily-understandable language.
- State clearly any relevant terms of service or community guidelines (i.e. how users are
 expected to behave and what is not acceptable) with which user generated content
 must comply.
- Ensure that reporting options are in the relevant areas of the service.
- Provide notice about the consequences for users if they post content which violates terms of service or community guidelines.
- Continue work to provide innovative solutions able to support child safety protection tools and solutions.

1. Do you provide a mechanism for consumers to provide feedback, report an issue or
file a complaint about the appropriateness of a piece of content?
□ Yes
\square No
☑ Not applicable (please explain):
Telia Company does not provide its own content, platforms for user generated content or
Social networking services.
As a distributor of third party professional content, Telia ensures, through its contracts
with content providers, that the content is classified according to the applicable content
classification requirements. This offers consumers the possibility to provide feedback.
Also, customer can always use normal customer care channels for any type of feedback
on our services.
If yes, please provide details:
2. Do you offer a means <i>for restricting / blocking access</i> to potentially inappropriate
content for users of your service or product?

☑ Yes
\square No
□ Not applicable (please explain):
,, ,, ,,
If yes, please provide details of mechanisms in place: Telia provides child safeguarding tools in relation to its fixed and mobile internet services, including: - Filtering of inappropriate content
 Time-control
 Blacklisting of contacts and web-pages
Telia IPTV services includes child safeguarding features: — Linear TV:
Option to block age-rated programmes
 Adult (+18) channels pin controlled (if such channels are provided) Option to hide adult (+18) channels from the TV guide (if such channels are provided)
Video on Demand (VOD):
 Different levels of restriction based on certificate ratings that correspond with the film rating system
 The Adult on demand menu is automatically PIN controlled at all times
Telia uses a net based filter to block access to websites classified by the police to carry Child Sexual Abuse Material.
3. Do you provide any information, educational resources or advice for users in any of
the following areas?
(tick as many as apply)

☐ Content classification or labeling guidelines
✓ How to block or restrict access to content
☐ How to report or flag content as inappropriate
☑ Safe searching☐ Information about your company's content policy in relation to children
☐ Not applicable (please explain):
If yes, please provide details including the format of any material provided (video, text,
tips, games, FAQs, etc.):
Telia offers client based child safeguarding tools to its consumer customers and in
connection to that guidance on how to use these in terms of safe searching, blocking or
restricting access to inappropriate content.
On the web sites there are advice to sustamers on how to use mobile phones in a safe
On the web sites there are advice to customers on how to use mobile phones in a safe manner.
Through our volunteering program YOUNITE, Telia employees have provided lessons and
workshops for children about safety online.
https://www.teliacompany.com/en/news/news-articles/2019/telia-unites-to-keep-kids-safe-online/
<u>sate-offitte/</u>
4. Where is your company's <u>Acceptable Use Policy</u> (AUP) located?
There is a supported up a D2D/or sign grading integration on Talia/or any issue
There is currently no P2P/social media interaction on Telia's services. Telia does not provide own content or platforms for user generated content.
relia does not provide own content of platforms for user generated content.
General terms and conditions:
https://www.telia.fi/toimitusehdot-ja-palvelukuvaukset
http://www.telia.se/privat/villkor/
https://telia.no/kundeservice/ordre-avtale http://telia.dk/omtelia/betingelser
https://www.telia.ee/ettevottest/lepingud-ja-tingimused
https://www.omnitel.lt/sutartys
https://www.telia.lt/autoriu-teises
5. Does the AUP or separate give clear guidelines with which <u>user generated content</u>
must comply (including details about how users are expected to behave and what is not
acceptable)?

ICT Coalition for Children Online

☐ Yes ☐ No
✓ Not applicable (please explain):
If yes, please identify relevant policy:
Telia does not provide own content or platforms for user generated content.
6. Do you provide notice about the <u>consequences for users</u> if they post content which violates terms of service or community guidelines?
□ Yes
□ No
✓ Not applicable (please explain):
Telia does not provide own content or platforms for user generated content.
In the terms of service we inform about the potential blocking of websites carrying child sexual abuse material. Example: http://www.telia.se/privat/om/anmalan-overtradelser ?intcmp=fp_om-telia_anmalan-overtradelser
If yes, please identify relevant policy:

Principle 2 – Parental Controls

Commitments

Signatories should assist parents to limit their children's exposure to potentially inappropriate content and contact.

- Manufacturers should optimise hardware design to provide products which simply and clearly help parents to set appropriate levels of control on devices.
- Network providers should provide necessary tools and settings across their services to enable parents to set appropriate levels of control.
- Service and content providers should make available the necessary tools and settings across their services to enable parents to set appropriate levels of control
- 1. Please outline the availability of any <u>parental control tools and settings</u> across your product or service that allows parents to set appropriate levels of control? Include relevant links/ screenshots where available:

Internet services:

In cooperation with its partner F-secure Telia Company provides various child safeguarding tools/features through the service SAFE, in relation to its fixed and mobile internet services, such as:

- Filtering of inappropriate content
- Time-control
- Blacklisting of contacts and web-pages

Finland: https://www.telia.fi/kauppa/palvelut/tietoturva

Sweden: https://www.telia.se/privat/bredband/tjanster/produkt/f-secure-safe

Estonia: https://www.telia.ee/era/lisateenused/viirusetorie-telia-safe

Lithuania: https://www.telia.lt/privatiems/internetas/ismaniosios-paslaugos/antivirusas-

plius

Denmark: https://www.telia.dk/privat/underholdning/telia-secure/

TV:

- linear channels
 - Option to block age-rated programmes
 - Adult (+18) channels pin controlled (if such channels are provided)
 - Option to hide adult (+18) channels from the TV guide (if such channels are provided)
- Video on <u>Demand</u> (VOD) services
 - Different levels of restriction based on certificate ratings that correspond with the film rating system
 - The Adult on demand menu is automatically PIN controlled at all times
- In Lithuania we offer "Vaikų kampelis" (<u>Kids' corner</u>) on IPTV https://www.telia.lt/privatiems/televizija/ismanioji/vaiku-kampelis

- Kids cannot access content for adults
- Age filters allowing children watch relative content
- Time restriction for watching
- 2. . If applicable, please describe the features offered by the *parental controls*? E.g. restricting web access, customization, monitoring, other restrictions.....

The child safeguarding product Safe, provided by F-Secure, that Telia offers, allows the user/parent/caregiver to set time restrictions for browsing and if there are certain websites that the child should not have access to (in appropriate content). Also search results can be filtered to ensure safe search for children, preventing children to encounter inappropriate content.

It is possible to customize profiles and create unique profiles for numerous users by creating different age profiles and customize them to block or allow certain types of sites based on certain preferences (filter out unwanted content).

Ex of instructions for installation and the choices you can make:

https://www.telia.se/privat/support/info/anvand-surfskydd?p=f-secure-safe

3. In relation to parental controls, which of the following <u>educational and information</u> <u>resources</u> to do you offer?

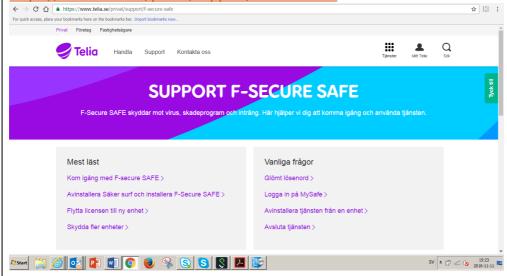

(tick as many as apply)

- \square Company policy in relation to use of parental controls
- ☑ Guidance about how to use parental controls
- ☑ Educational or awareness-raising resources about the use of parental controls
- ☑A promotional or marketing channel for the uptake of parental controls
- ☑ External links to educational material/resources about the use of parental control

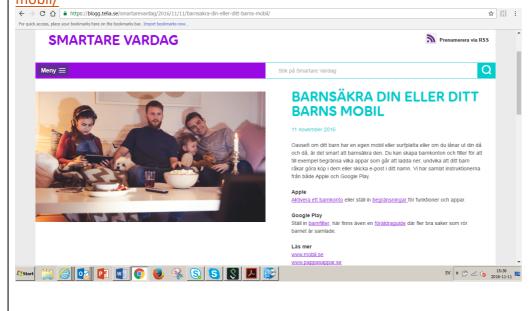

Telia is working to increase the visibility and awareness of child safeguarding tools by different marketing efforts and support the take up by improving editorial level in TeliaSonera webpages and providing advice for installation and use of the tools. The tools are marketed in sales magazines, in various sales contacts and on the web.

Ex of instruction and support available for Swedish customers:

Examples for Danish customers: https://www.telia.dk/privat/om-telia/telia-i-danmark/samfundsansvar/born-og-ansvarlighed/
Examples for Estonian customers: www.telia.ee/lapsed www.digitark.ee
4. Please outline any additional safety tools or solutions <u>not detailed above</u> that relate to parental controls, including any planned implementation of new features or procedures?

Principle 3 – Dealing with abuse/misuse

Requirements

Signatories should:

- Provide a clear and simple process whereby users can report content or behaviour which breaches the service's terms and conditions.
- Implement appropriate procedures for reviewing user reports about images, videos, text and other content or behaviour.
- Provide clear information to users on all available report and review procedures.
- Place and review regularly links to these reporting options in appropriate areas of the service (e.g. where users view user-generated content or interact with other users) and provide guidance on what to report.
- Place links to relevant child welfare organisations or specialist providers of advice (e.g. about anorexia or bullying) and other confidential helplines/support services in appropriate areas.
- Ensure that moderators who review user reports are properly trained to determine or escalate content or behaviour presented to them

1. Please provide details of <u>company policy relating to abuse</u> and misuse (involving images, videos, text and other content or behaviour) on your product or service.

Telia doesn't provide own content or platforms for user generated content and therefore don't deal with such abuse. However, it is possible for anyone to report abuse and or misuse of any sort or any customer issue through customer service contact points, e.g. retail outlets, contact centres and online contact channels.

Telia's general service terms include company policy regarding the misuse in the Telia networks:

https://www.telia.fi/toimitusehdot-ja-palvelukuvaukset

http://www.telia.se/privat/villkor/

https://telia.no/kundeservice/ordre-avtale

http://telia.dk/omtelia/betingelser

https://www.telia.ee/ettevottest/lepingud-ja-tingimused

https://www.omnitel.lt/sutartys https://www.telia.lt/autoriu-teises

2. Please describe the <u>process or mechanism</u> available for users to report abuse/misuse (involving images, videos, text and other content or behaviour) on your product or service).

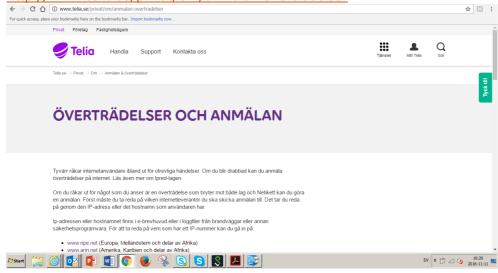

As we are an Internet access and service provider we are asking the users to report abusing from various sites with user generated content to the Police.

We also guide customers to report Child Sexual Abuse Material to the Police or to ECPAT (part of INHOPE).

https://www.teliacompany.com/en/sustainability/children-online/abuse-online/

Ex from Telia Sweden:

http://www.telia.se/privat/om/anmalan-overtradelser

[Please provide details including links or screenshots as relevant]

3. Where is the reporting button/ mechanism located?

(tick any that apply)

- \square On each page of the website/service
- ☐ Close to the point where such content might be reported
- \square In a separate location such as a safety page
- \square In a browser extension
- \square In a separate app for a connected device
- ☑ Other (please specify):

Links for reaching abuse team and report Child Sexual Abuse Material is put on a certain page on web site (see above).

4. Who may use such a reporting mechanism?

(tick any that apply)

Only registered user/profile in which content is leasted
Only registered user/profile in which content is located
☐ All registered users of the product/service?
☑ Everyone including non-users, e.g. parents/teachers who are not registered for the
service
☐ Other (please explain):
5. Which of the following kinds of content can users report?
Such as mail bombing, intrusion attempts or received spam as well as any illegal material,
such as child sexual abuse material, found on web pages.
6. Which of the following information do you provide to users?
(tick any that apply)
(tick any that apply)
(tick any that apply) ☑ Advice about what to report

8. Please outline briefly any other procedures or programmes offered by your service <u>not detailed above</u> that relate to abuse /misuse,

Principle 4 – Child Sexual abuse content or illegal contact

Requirements

Signatories should:

- Co-operate with law enforcement authorities, as provided for in local law, regarding child sexual abuse content or unlawful contact.
- Facilitate the notification of suspected child sexual abuse content to the appropriate law enforcement channels, in accordance with existing laws and data protection rules.
- Ensure the prompt removal of illegal child sexual abuse content (once it has been confirmed as illegal by the relevant public authority) in liaison with national law enforcement.
- Provide relevant additional information and/or links to users so they can make a
 report or obtain information about appropriate agencies or organisations that users
 can contact about making a report or obtaining expert advice, at national and EU
 level (e.g. law enforcement agencies, national INHOPE hotlines and emergency
 services).

1. Which of the following mechanisms are provided on your product or service to <u>facilitate</u> the notification or reporting of suspected child abuse content?
(tick any that apply)
☐ Company-own hotline reporting button or telephone number
☑ Link or button for external national or regional INHOPE hotline
☐ Emergency services
☑ Law enforcement agency
☐ Other external agency (please specify):
2. Please outline briefly the procedures to be followed if illegal content were to be
discovered on your service.
If illegal content is reported the person reporting it is asked to report this directly to the
Police or to ECPAT/INHOPE.

Procedure may vary somewhat between countries but in general the following process applies at Telia to Child Sexual Abuse Material CSAM:

If CSAM was discovered by Telia, or by the public, who notify Telia of CSAM through customer channels, like call centre or online contact form, the Abuse team would be notified, who in turn would notify the national police. Dependent on police request and the legal requirements, the content would be removed or quarantined to enable investigation. Any CSAM discovered by police or Hotline will be handled by the police and dependent on police request and the legal requirements, the content would be removed or quarantined to enable investigation.

Through partnership with national law enforcement agencies, Telia is actively engaged in blocking access to websites containing child sexual abuse content on its fixed and mobile broadband. The process is that the national law enforcement agency provides Telia with a list of illegal sites to block. Telia does not in any way interfere with the list.

3. Do you provide links to any of the following to enable users gain additional
<u>information</u> in relation to child sexual abuse content or illegal contact?
(tick any that apply)

- ☑ Links to relevant child welfare organizations/specialist providers of advice
- ☑ Other confidential helplines/support services
- \square Law enforcement agencies
- **☑** INHOPE
- **☑** Other (please specify):
- news articles on fighting CSAM https://www.teliacompany.com/en/news/news-articles/2016/protecting-children-by-acting-on-abusive-online-content/
- links to partners like <u>www.netclean.com</u> and <u>www.childhood.org</u>
- links to child helplines https://www.teliacompany.com/en/sustainability/children-online/find-help/
- 4. Please outline briefly any additional procedure in place within your company <u>not</u> <u>detailed above</u> to ensure that you comply with local and/ or international laws with regard to child sexual abuse and other illegal content?

Telia also applies a system for detection of illegal (classified by law enforcement) pictures on the internal IT-equipment and reports such detection to the police. https://www.teliacompany.com/en/sustainability/children-online/abuse-online/

Principle 5 – Privacy and Control

Requirements

Signatories should:

- Manage privacy settings appropriate for children and young people in ways that ensure they are as safe as is reasonably possible.
- Offer a range of privacy setting options that encourage parents, children and young people to make informed decisions about their use of the service and the information they post and share with others online. These options should be easy to understand, prominently placed, user friendly and accessible.
- Take steps, where appropriate and in accordance with legal obligations, to raise user awareness of different privacy controls enabled by services or devices and enable users to use these as appropriate.
- Make reasonable efforts to raise awareness among all parties, service, content, technology and application providers, including public bodies, of industry good practice in relation to the protection of children and young people online

1. Please provide details of your company's published <u>privacy policy</u> in relation access, collection, sharing and further use of data from minors under the age of 18 when utilizing your product or service?

This chapter refers to products and services that allow users to share their private data with each other. Telia does not offer this kind of social networking service and thus potential impact to increase child online safety is very limited.

Any person who signs a contract with Telia for a subscription must be 18 or older. Any known children's data is flagged and excluded from marketing campaigns.

Telia Company Group Policy Customer Privacy is valid for all customers. One main principle stated in the Policy is to pay special attention to the protection of children:

"Process personal data only to the extent necessary for explicit purpose applicable for that processing, while always paying attention to the protection of individuals' privacy and to interests of special user groups such as **children**." (Principles, page 2 in enclosed Policy)

https://www.teliacompany.com/globalassets/telia-company/documents/about-telia-company/public-policy/2018/group-policy---privacy-and-data-protection.pdf

In addition Country organizations have their own notices e.g. in Telia in Finland the public notice says:

"Telia processes children's personal data to the extent permitted by law, when appropriate in the case in question. Telia takes reasonable efforts to ensure and verify that the custodian of a child under the age of 13 has agreed to the processing of personal data, taking into account the available technology and the privacy risks related to the processing."

https://www.telia.fi/tietosuoja-ja-tietoturva/privacy-notice

Telia is also a signatory of the GSMA Privacy Design Guidelines for Mobile Application
Development. These contain a specific section on privacy in relation to children.
2. Are <u>distinct privacy settings</u> deployed to prevent access to information on for users under the age of 18?
□ Yes
\square No
☑ Not applicable (please explain): See above.
If yes, please briefly outline available age-appropriate privacy settings (Provide details including relevant links/ screenshots on your website)
Please identify default settings for each <u>age category</u> of under 18s, as relevant:
Disease identify any stone way have taken to answer that these sattings are againts
Please identify any steps you have taken to ensure that these settings are <u>easy to</u> <u>understand, prominently placed, user friendly and accessible</u> .
understand, prominently placed, user friendly and accessible.
3. Where are users able to view and change or update their privacy status?
tick any that apply)
\square On each page of the website/service
☐ At each point where content may be posted
☐ In separate location such as a settings/safety/privacy page

safeguards appropriate to the sensitivity of the information. Part of our advice to parents and children focuses on giving information on how to manage privacy settings on online services in general, e.g. social networks, games consoles and TV. We are providing workshop modules that can be carried out by Telia volunteers or school teachers on safe internet behavior, including online privacy and integrity. https://www.teliacompany.com/en/sustainability/children-online/workshops/ Example Lithuania: Safety online trainings (webcast and live) by Telia employees in Lithuania. Around 35,000 children have been reached through the live and webcast lessons. Example Sweden: https://www.telia.se/privat/om/surfa-sakert?intcmp=fp_om-telia_surfa-sakert Example Finland: https://www.telia.fi/kauppa/liittymat/liittyma-lapselle/lapset-netissa-

Principle 6 – Education and Awareness

Requirements

Signatories should:

- Educate children and young people and give them up to date information to manage their access and settings in relation to content, services and applications, adding support where possible to existing initiatives and partnerships.
- Provide advice about features of the service or functionality that are available to allow parents to improve the protection of children, such as tools to prevent access to certain types of content or service.
- Provide links to other sources of relevant, independent and authoritative advice for parents and carers, teachers, and for children.
- Provide access to information that will help educate parents, carers, teachers and children about media literacy and ethical digital citizenship, and help them think critically about the content consumed and created on the internet.
- Encourage parents and teachers to use this information and talk to their children/pupils about the issues arising from the use of online services, including such topics as bullying, grooming and, where relevant, cost management

1. Does your company provide its own educational resources aimed at any of the
following groups?
☑ Younger children, i.e. under 13s
☑ Teenagers <18s
✓ Parents and carers
☑ Teachers and other adults
Others (please specify):
We generally direct our own advice towards our customers who are parents.
Through our volunteering program our employees go to school classes to carry out
workshops on internet safety, cyber-bullying and internet privacy. The workshop materials have been developed in cooperation with our NGO partners. We also provide
workshop formats that can be facilitated by school teachers, parents or adults:
https://www.teliacompany.com/en/sustainability/children-online/workshops/
On Safer Internet Day 2019 Telia Company launched an interactive school workshop
concept for schools in the Nordic and Baltic countries. During the workshop the children
(11-14 years old) create their own animated advice to other children about a healthy life
online.
In some countries we have performed educational sessions for employees around safer internet behavior for children and net bullving.

Example of our own advice to parents:

Sweden: https://www.telia.se/privat/om/surfa-sakert?intcmp=fp om-telia surfa-sakert

2. Which of the following <u>topics</u> are included within your own company educational materials? (tick any that apply)
☑ Online safe behaviour
✓ Privacy issues
✓ Cyberbullying
☐ Download and copyright issues
☑ Safe use of mobile phones
☐ Contact with strangers
☐ Other topics (please specify)
3. With reference to any educational material you provide, which of the following
methods do you use?
(tick any as apply)
☐ Documentation provided with product/contract on purchase/first registration
☐ A required presentation by salesperson completing sale
☑ Displays/leaflets positioned prominently in stores
□ Notification by email / on-screen statement / other means when product or contract
is purchased or first registered
☐ Prominent notifications, resources or pop ups on website
☐ Helpdesk (telephone or online)
☑ Other (please specify): On our website(s)
4. Please provide details of any links to other <u>external organisations</u> , or relevant, independent and authoritative advice for parents/carers, teachers, and for children?

Telia Company website has links and information about our partnerships, such as World Childhood Foundation:

https://www.teliacompany.com/en/sustainability/children-online/partnerships/

Telia in Sweden has a partnership with NGO Friends to work against net-bullying https://www.telia.se/privat/om/schysstpanatet?intcmp=hatahat_subhero_friends Also linking to other child rights sites from Telia's site:

Telia in Finland has a partnership with Save the Children https://www.telia.fi/kauppa/liittymat/liittymat/liittyma-lapselle/lapset-netissa-opas

Telia in Denmark has a partnership with Save the Children e.g. for the digital advisor for parents and safe chat for children http://www.sikkerchat.dk/

Telia in Estonia has a partnership with Lastekaitse Liit (Estonian Union for Child Welfare) to work against net-bullying.

http://www.lastekaitseliit.ee/

Telia in Lithuania has a partnership with Vaiku Linija for various child online safety issues. http://www.vaikulinija.lt/

5. Please provide details of any campaigns, or active involvement in <u>industry</u> <u>partnerships</u> on specific topics to raise public awareness of digital safety for children and young people?

We participate in a number of initiatives at Group and national levels, e.g. cooperation with national INHOPE and INSAFE organisations for promotion and dialogue.

Telia is co-operating with security vendor F-Secure in order to build better marketing campaigns and increase awareness when selling internet security services to customers incl. child safeguarding tools.

Telia is co-operating with technology provider NetClean and promotes their products for detection of child Sexual Abuse Material in company IT-networks and equipment.

Telia is a signatory to a number of self-regulatory initiatives in the area of Protection of Children online, and we drive our work to at least comply with the principles set by these initiatives. The signed initiatives are GSMA Mobile Alliance Against Child Sexual Abuse Content (2008), ICT Coalition for Children Online (2012), GSMA MoU with Child Helplines International (2014) and the Alliance to better protect minors online (2017).

6. Please provide details of any partnerships with <u>NGO, civil society or other educational</u> <u>agencies</u> or campaigns to raise public awareness of digital safety for children and young people.

See 4 above

7. Please outline briefly any of your own company initiatives in <u>media literacy and</u> <u>ethical digital citizenship</u>, designed to help children and young people to think critically about the content consumed and created on the internet.

Workshops provided to schools through our employee volunteering program on advice for a healthy life online. https://www.teliacompany.com/en/sustainability/children-online/workshops/

8. Please provide details of any advice and supports to encourage parents or teachers to talk to their children/ pupils about the opportunities and risks arising from their use of the internet.

Workshop materials that teachers or parents can facilitate including #netsmart for adults-advice on how to talk to children about life online:

https://www.teliacompany.com/en/sustainability/children-online/workshops/

ICT Coalition for Children Online

9. Please outline any additional activities or initiatives not detailed above that relate to
·
education and awareness-raising offered by your service or product.

In addition to information submitted related to implementation of the ICT Principles, the following supplementary information supplied in either written form or in discussion with companies provides valuable context and information about the functioning and effectiveness of child safety provision.

- 1. In respect of ICT Principle 1, that companies should "continue work to provide innovative solutions able to support child safety protection tools and solutions", please elaborate on company investment in child safety measures, including research. Elaborate also, where possible, on planned future implementations.
 - i. Telia Company is a founding partner of World Childhood Foundation www.childhood.org and together Telia and Childhood has agreed on a joint mission "Keeping children safe and in control online". The partnership aims to Understand children online, Reach out to children for safety and to strengthen children online. Activities to implement this is ongoing.
 - ii. Telia has partnered with child rights organizations and schools to design a Children Advisory Panel (CAP), active in seven markets in the Nordics and Baltics. https://www.teliacompany.com/en/sustainability/children-online/childrens-voices/
 - The partner schools host co-creation workshops where 6th or 9th grade students encounter a challenge related to real life and the internet, and work together to come up with solutions. The workshops are conducted in cooperation with local child rights organizations, like Save the Children, for professional support on the children's perspective. The work is done in small groups in the class using different co-creation methods. So far around 2,200 children in the 6th and 9th grades have participated by describing and discussing the opportunities, benefits and challenges of life online. The aim of the CAP initiative is to further develop Telia's understanding of how we as a company can improve our own approach to children as users of our technology, and to contribute to the ICT industry's and society's understanding of children as online citizens. The findings are shared to improve Telia Company's approach to children's rights as users of our technology and to contribute to the industry and society's understanding of children as online citizens. First initial findings are expected before year end 2016.
 - iii. Telia Company has during 2016 initiated an assessment in regards to Children's Rights and Business Principles and has worked on improvements in the field of how Telia as a company acts in relation to children's rights, including safety online.
- iv. In addition to above Telia has formed partnerships and makes investments on local level on child safety issues. For example
 Telia in Sweden work together with the organization Friends https://friends.se/en/against net bullying
 Telia in Finland has a partnership with Save the children for digital services and children online

Telia in Estonia has a partnership with Lastekaitse Liit (Estonian Union for Child Welfare) to work together against net bullying.

Telia in Lithuania makes a number of local investments on safety for children on line in partnership with "Vaiky linija".

The aim is to aggregate these investments on Group level and share findings and solutions between the subsidiaries.

- v. In spring 2018 Telia Company CEO Johan Dennelind participated in Global Child Forum, laying out Telia Company's work on respecting and promoting children's rights and took a pledge to advance children's rights in our business.
- 2. Any further data that companies may be able to provide regarding the functioning of child safety features would be an extremely valuable outcome of this assessment.

Where possible, please provide any available summary data in respect of the following elements. (Stipulate where data should only be presented in anonymised form).

Take up or frequency of use of parental control tools on your product or service?

Incidence of reporting use/misuse, categorization and frequency of reports on your product or service? How many? By whom? Which problem?

Kinds of actions taken by the provider for different categories of reports. What was the outcome?

How do you evaluate the effectiveness of response to reports?

Privacy settings: the percentage of children who have private profiles, and those who have changed default privacy settings (and how/what did they change), by age, gender and country

Use of location-based services by children

Take up and use of education and awareness raising activities undertaken for your product or service?

3. Please detail any additional measures adopted to evaluate the effectiveness of child safety features.
